13.6.6   Merge the Earthquake Branch with the main Branch

Basil and Sadhana want to review your code for the Earthquakes_past7days branch. Once the code meets their approval, you can merge the branch with the main branch.

You've been creating a lot of GitHub branches in this module. However, you've only merged one branch into the main branch. Can you recall the steps for merging a branch into the main branch?

What is the order for merging a branch with the main branch?

1. [   ]

2. [   ]

3. [   ]

4. [   ]

5. [   ]

⁚⁚
Compare your branch with main with a pull request.   ⁚⁚ Merge the pull request.

⁚⁚ The issues says you are "Able to merge."   ⁚⁚ Create the pull request.

⁚⁚ Create the issue.   ⁚⁚ Compare your branch with main with an issue.

⁚⁚ The pull request says you are "Able to merge."

⁚⁚
Someone reviews the code and approves the pull request.   ⁚⁚ Merge the issue.

⁚⁚
Someone reviews the code and approves the issue.
